

About CF Foundation: Their mission is to assure the development of the means to cure and control cystic fibrosis and to improve the quality of life for those with the disease.

Cystic fibrosis is an inherited chronic disease that affects the lungs and digestive system of about 30,000 children and adults in the United States. A defective gene and its protein product cause the body to produce unusually sticky mucus that clogs the lungs and obstructs the pancreas.

About the course: Aliso Viejo Country Club features one of only two private Nicklaus Design golf courses in Orange County. With some of the best holes of golf and some of the best views in the Orange County area, the par-72 course at the Club leaves nothing to be desired and offers an appropriate level of play for all skill levels. Both challenging from the back tees at over 6,500 yards and forgiving from the forward tees, the course at Aliso Viejo Country Club is uniquely appealing to the low-handicap golfer as well as the less experienced golfer.

IMPORTANT PLAYER INFORMATION BELOW:
